

Spring/Summer Trade Menu 2023 Cold Canapé Selection

Maximum **taste**, minimum **fuss**

CanapéBox Trade was created and designed to achieve one thing - a high quality, hand made, outsource solution for busy teams in the hospitality and events industry. By using an outsourced solution, key elements of your service can be switched from overhead to cost of sale, reducing balance sheet risk whilst improving cashflow. You'll be able to stabilise production pressures and free up staff for other elements of service whilst remaining on trend. With less reliance on staffing and protection from price fluctuations, this is a very interesting opportunity. We offer a wide range of services with large wholesale volume capabilities to smaller individual operations with low order volumes.

We also offer Trade accounts for regular and repeat business. For more information, please contact info@canapebox.co.uk
