Christmas-themed workshops are now well established as a favourite activity for staff during the festive season. Organised by social groups or by management, these workshops are a perfect way for staff to relax and get creative, bringing a touch of Christmas festivity to your office.

We bring all of the materials to you. Beautiful fresh Irish Christmas foliage with a selection of decorations, both natural and bling, to suit all preferences. The feedback from our previous workshops has been fantastic and all staff get to bring home their creation.

Workshop Options

We like to offer a number of options to choose from for your Christmas workshop.

In each case, we do the groundwork and provide the wreath or arrangement with fresh Christmas foliage ready to decorate. This foliage usually lasts for weeks when kept cool and sprayed with water.

To ensure your arrangement lasts through the Christmas season, we use silk flowers and dried fruits along with a selection of Christmas decorations.

Christmas Door Wreath

The traditional Christmas wreath is always a popular option. We provide the base already made with high quality fresh Irish Christmas foliage. Everyone receives a selection of decorations and bows to decorate the wreath.

€90pp

Round Candle Arrangement

If you'd prefer to create a festive candle arrangement for home, then this is a great option. A central pillar candle is surrounded by lush foliage ready for you to decorate with fruits, berries and bows.

€70 pp

Christmas Hatbox

This arrangement makes a very attractive display in your home or a wonderful gift. The hatbox comes prepared with fresh Christmas foliage, ready for you to decorate with silk flowers, fruits and berries.

€80 pp

Note: Prices shown are indicative and will be dependent on number of attendees and may vary according to price of materials at the time.

How it works

- The workshop begins with a demonstration from the tutor of the various techniques used in adding decorations to the wreath or arrangement.
- There will be a discussion about various design options and a demonstration of some of these designs.
- The attendees will then get hands-on decorating their own wreath arrangement.
- The tutor and assistants will be on-hand to guide and assist staff with their creation.
- The workshop takes about 1.5 hours approximately.
- The emphasis is on a festive atmosphere with some spot prizes along the way.
- If you would like a remote option for those who can't join in person on the day, that's no problem. We can send them a kit in advance of the event so that they can join in by video conference on the day. Note: Video conferencing to be arranged by the client.

“Wonderful Christmas wreath making teambuilding work event hosted by Sandra and her team. Sandra and team created a great event for us, right in our own office space which was super handy. I've received lots of positive feedback from my colleagues. We will definitely be doing this again next year.”
