## RECREATION

**Mohammed Al Habtoor**, Patron of the team, has participated in numerous polo tournaments both locally and globally. He has turned the Dubai Polo Gold Cup Series into one of the highlights of the Dubai sports calendar, making it one of the region's most prestigious polo events.

### Origin of Polo

The roots of polo are said to date back over 2,500 years to the 6th century in ancient Persia. But it quickly spread eastwards and eventually caught the attention of the British tea planters in India in the 19th century who put the 'English touch' on the sport and imported it to Britain in 1869. It was then re-exported to America and beyond. Polo is often referred to as "the game of kings," as it was adopted as the most noble of pastimes by kings, princes, shahs, sultans and warriors all over the world. It was Captain John Watson, an Irishman, from the British Cavalry, who created the first known set of rules for playing polo. The so-called 'Hurlingham Rules' were created in 1874 limiting the number of players in a team to five.

### Objective

To score goals against the opposing team. Players score by driving a small hard white ball into the opposing team's goal using a long-handled wooden mallet.

The sport of polo is played on a grass field of 300 by 160 yards. Each polo team consists of four riders and their polo ponies. The Al Habtoor Polo legacy was established in 2000 by a man of polo passion; Mohammed Al Habtoor. Since then, the sport of polo has been driven to new heights with Habtoor Polo by its side. In 2012 the Habtoor Polo Team won its first Dubai Polo Gold Cup title, followed by the Dubai Silver Cup in 2013 and the Hildon Cup in 2015.

## KEY POLO TERMS

**CHUKKA:** A polo match is either 4 or 6 or 8 chukkas depending on the match, players and horses available. In a match you have either 2 or 3 players in a team and 1 or 2 umpires. A chukka is 7 minutes, the interval between chukkas is 3 minutes. Chukkas is sometimes used when referring to a practice session.

**HANDICAP:** The players are rated on a scale from minus -2 to 10. Minus -2 indicates a novice player, while a player rated at 10 goals has the highest handicap possible. Handicaps of five goals and above generally belong to professional players.

**DIVOTS:** Turf kicked up by ponies' hooves. Traditionally replaced by the crowd between Chukkas.

**POLO Mallet:** The shaft is usually made from bamboo cane and the head from a hard wood, the wide face of the mallet head is used to strike the ball and not the ends, as in croquet. Polo mallets range in length according, principally, to the height of the pony played, and extend from 48 to 54 inches.

**PATRON:** A financially unchallenged amateur player who pays to put a team together, which is usually made up of at least two professionals and is normally named after the patron's house or company.

**UMPIRES:** Two mounted umpires (one for each side of the field) who regulate the game.

**ZONE:** The area immediately around the pitch that is out of bounds for spectators during play.

**The Al Habtoor Polo Resort & Club** offers exclusive polo facilities and four world-class polo fields to meet the expectations of local and international players.

Our **Polo Academy** is designed to cater for all levels of players from those embarking on their first tournament, to those embracing the ultimate, high goal polo. The annual polo calendar ranges from league matches to high goal and challenge tournaments.

The Polo season runs from October – May. Matches on almost every day during the season.
