LET'S TALK BIG BUSES

Big Bus Tours operates a modern, comfortable fleet of open-top double decker buses perfect for a London experience, and also provides an excellent transport alternative around the city.

The capacity of the upper deck is between 45 and 63 while the lower deck will carry between 25 and 38 customers at any one time. Many of our clients choose for their guests to travel on the upper deck only and this can be accommodated with multiple buses travelling in tandem. Vehicles will be entirely and exclusively your own, with just a driver and guide on board. Guests will be able to tune in to our informative and entertaining digital commentary.

Our audio system also enables organisers to make introductions, welcome their guests or include unique presentations designed for the occasion. With the perfect mix of activity and transport, a Big Bus Tour can be either the main attraction for your event or simply a means of getting between chosen venues or other organised activities.

SOMETHING SPECIAL

Sometimes an event or outing requires that something special. We are happy to help arrange extras such as:

- Drinks and snacks on board
- Balloons and bunting
- Quizzes, staff awards etc.

If you have any specific ideas, you only need to ask and we'll do what we can to make your wishes a reality.

LIVE COMMENTARY

We can provide Guides for your event to share fun facts and fascinating stories which will bring the tour to life and create lasting memories. We hand-pick guides best suited to the aims and objectives of your event, including particular areas of speciality or tour style.

STEP OUTSIDE THE BUS....

It's not always just about the bus experience. Let us customise your event further with our knowledge and understanding of London. Our amazing guides can offer walking tours built around your chosen themes or locations. Get in touch today and we can design your own unique London experience.
