HERITAGE

Taking its soul from a Neo-Romanesque Revival style of the beginning of the 20th century, the San Marco Hall (formerly the Church) of Isola delle Rose, no longer used for religious services, is a sober presence of authentic appeal inside the resort.

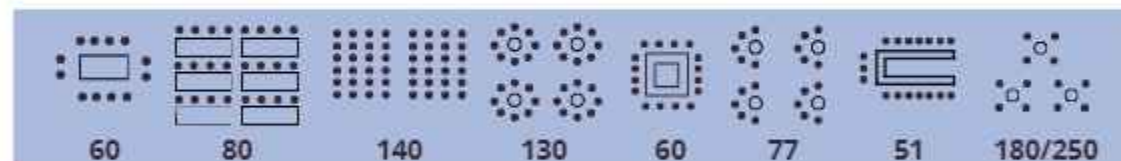

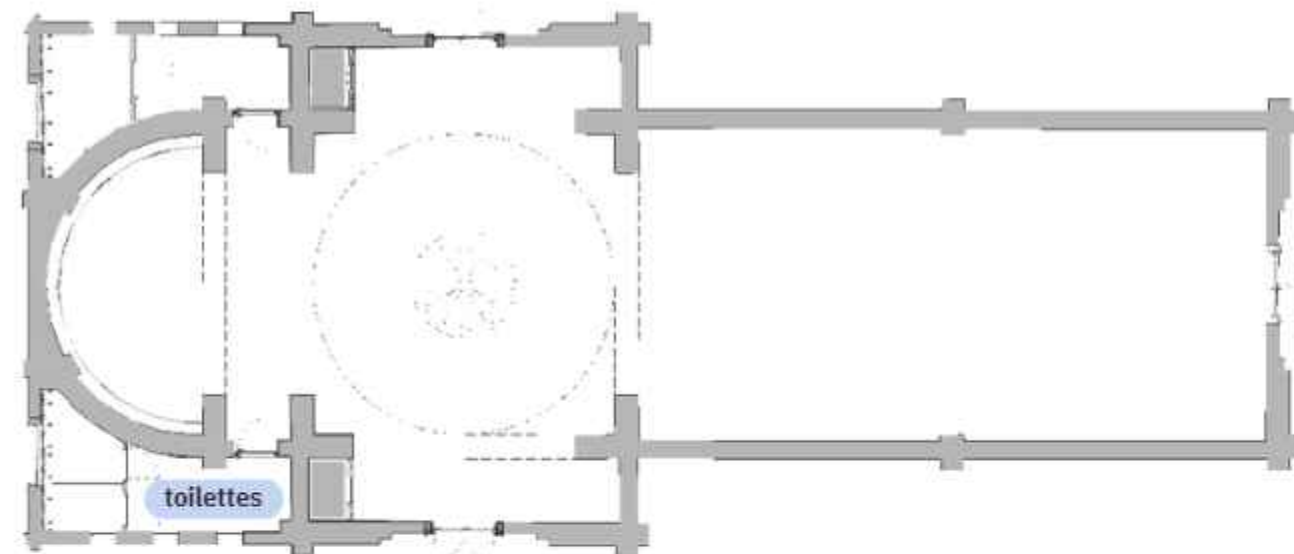

The composed beauty of its single nave is the ideal setting for a meeting of high culture, a concert, an artistical presentation, a refined conference or an exclusive dinner. San Marco Hall (formerly the Church) is enriched by two original majestic Murano chandeliers.
